CAREER OBJECTIVE

Full Stack Developer & CSE Undergraduate specializing in MERN stack development and Data Structures & Algorithms. Strong foundation in building scalable web applications, with current work centered on integrating Transformers and Large Language Models (LLMs) to create intelligent, real-world digital solutions.

EXPERIENCE

Frontend Development Intern — Apex Planet Pvt. Ltd.

June 2025 – July 2025

HTML5 • CSS3 • JavaScript • Email.js • Chart.js • Git • GitHub

- Developed responsive and user-friendly web pages using HTML, CSS, and JavaScript.
- Integrated libraries such as **Email.js** for email functionality and **Chart.js** for interactive data visualization.
- Collaborated on frontend development tasks and maintained project code using Git and GitHub. Worked on practical frontend projects

Full Stack Developer Intern — HalfTone Systems Startup

Feb 2026 – May 2026

React.js • Node.js • Express.js • JavaScript • HTML5 • CSS3 • Git • GitHub • Hostinger • Vercel

- Designed and developed the company's official website, ensuring a modern, responsive, and performance-oriented user experience.
- Built and integrated the **VayuCare Forge** blog page as part of the company's next-generation healthcare platform.
- Collaborated with the development team to build, test, deploy, and maintain production-ready web applications using Git and GitHub-based version control workflows.

EDUCATION

Vignan's Institute of Information Technology (VIIT)

CGPA: 9.66

Bachelor of Technology in Computer Science and Engineering

2023–2027

Tirumala College, Rajahmundry

989/1000

Board of Intermediate Education, Andhra Pradesh (BIEAP)

2021–2023

PROJECTS

RailwayGo - Railway Exit Navigation System

[\[GitHub\]](#) | [\[Live Demo\]](#)

HTML5 • CSS3 • JavaScript • (Future: Real-time Live Navigation Integration)

- Developed a railway station navigation system using a **static SVG map** for **step-by-step exit navigation**.
- Implemented **visual path guidance** with support for **English, Telugu, and Hindi**.

CampusConnect - Student-Faculty Platform

[\[GitHub\]](#)

React.js • Node.js • Express.js • MongoDB • REST APIs • JWT Role-Based Authentication • Render

- Built a secure **MERN-based platform** for communication between students, faculty, and administrators.
- Implemented **study material sharing, complaint management, faculty announcements, and JWT-based authentication**.

Finance Tracker - Expense Management System

[\[GitHub\]](#)

React.js • Node.js • Express.js • MongoDB • Chart.js • JWT Authentication

- Developed a full-stack **finance management application** for tracking income, expenses, savings, and transactions.
- Built **Chart.js dashboards**, budgeting, expense analytics, filtering, and **JWT-based authentication**.

PaperTrail AI - AI Document Intelligence Platform

[\[GitHub\]](#) | [\[Live Demo\]](#)

Next.js • TypeScript • MongoDB • Firebase • Gemini AI • Vercel

- Built an AI-powered document intelligence platform using **Gemini Vision AI** to extract obligations, deadlines, payments, risks, and actionable tasks from PDFs and images.
- Implemented **zero-storage document processing**, persisting only structured document intelligence and metadata in MongoDB Atlas for improved privacy and efficient data management.
- Developed automated tasks, notifications, audit trails, and action calendars with **Firebase authentication** and a responsive Next.js interface.

TECHNICAL SKILLS

Languages	: Java, C, Python
Frontend	: React, Next.js, Vite, HTML5, CSS3, JavaScript, TypeScript
Backend	: Node.js, Express.js, JWT, Firebase
Databases	: MongoDB, MongoDB Atlas, Firebase
Deployment & Cloud	: Vercel, Render, Hostinger, Cloudinary
Tools	: Git, GitHub, VS Code, Anti Gravity, Postman, Overleaf
Concepts	: Deep Learning, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP, Quantum Computing

CERTIFICATIONS

- NPTEL — Data Structures and Algorithms
- Cisco Networking Academy — Python Essentials, Full Stack (HTML, CSS, JavaScript), CCNS
- Infosys — Soft Skills Training
- ApexPlanet Pvt. Ltd. & Vault of Codes — Web Development Internships (45 Days)

ACHIEVEMENTS

- Academic Merit Award — Ranked 1st among 300 students.
- Achieved a **2-Star** Rating on CodeChef.
- Solved **400+** **coding problems** across LeetCode, CodeChef, Codeforces and other programming platforms.
- ASME-SRIC Project Model Expo — Top 10 Project (Piezoelectric Footpath Electricity Generation).
- Selected among the Top 5 Finalists in the AU Ideathon and advanced to the patent evaluation and patent filing process.
